

### Board Focus for Long-term Performance

2019 global economy is expected to slow, as the World Bank reports in its 2019 Global Economic Prospects. Shifting policies, unilateralism and instability in advanced economies are sending rippling effects through the business world.

As a board member, rather than focusing on next period's earnings, are you helping make decisions that enhances long-term growth? Is it striving to survive or thriving in prosperity that you want to lead the company towards?

This programme covers considerations on

- -Global Risks
- Innovation
- Technology
- Sustainable Development Goals

with cases and discussions, to help your next strategy formulation exercise.
