### **Family Governance Best Practices**

Statistics show that less than 5% of family businesses actively manage their succession planning and family governance. Generational transition is often overlooked as one of the major risks in a family business.

In this course, we will be looking at some tools and concepts that can help with the family governance process and succession planning as many businesses in Hong Kong and China are transitioning from the 1st to 2nd generation or 2nd to 3rd generation.
