

Introduction of Facilitator 導師簡介

Mr Sai Chin Li

Director

HK Data & Analytics - Lead Management Consulting

KPMG Advisory (Hong Kong) Limited

Sai is the Head of D&A for KPMG Hong Kong. He has over 17 years of IT Strategy and Delivery experience with specialisation in data analytics. He has been helping his clients globally; leveraging data to drive business decisions and growth. Sai has a technical background and a track record for successful implementations of large and complex global projects, in addition, Sai covers the full spectrum of data analytics; from strategy to solution design, development and implementation.

Sai came from the UK where he spent most of his career with large global consulting firms. He transferred to KPMG HK 5 years ago to establish the D&A practice.

Mr Koen Klein Tank

Associate Director

HK Data & Analytics - Lead Risk based Analytics

KPMG Advisory (Hong Kong) Limited

Koen is an Associate Director in the IT Advisory practice in KPMG Hong Kong, specializing in Business and Risk Data & Analytic (D&A) services. Through performing performance, risk and security engagements, as well as delivering support for the Financial Statement Audits (CISA certified), Koen acquired extensive business process knowledge and is able to translate this on a technical level to D&A solutions.

Koen came from the Netherlands where he worked for clients around the world (Europe, Americas and Middle East) performing Risk based D&A projects like: Implementation of D&A for Internal Audit practices, Continuous Auditing & Continuous Monitoring implementations and D&A support on Risk Management, Forensic and Security projects.

He transferred from the Netherlands KPMG office to HK with the goal to establish the Risk Based analytic pillar in the broader HK D&A practice.
